

CAT. N° 4 460 69

PARTITION FOR LCS³ ENCLOSURES WIDTH 800 MM

Pack (number of units)	1
Volume (dm ³)	114,741
Weight (g)	10 100,00

Product characteristics

Cable ducts

- Cable ducts height 120 mm for optimum cabinet cabling
- For large cabinets, it is possible to combine a wide trunking element with another narrow one to get triple compartmentalization: this can be used, for example, to separate fibre optic, copper data and power supply cables

Narrow cable ducts and partitions

- Cable ducts depth 200mm to be placed by the cabinet's rear roof cable entry points
- Suitable for small quantities of wiring (for example, connections between servers)
- Partition
- Rack width: 800 mm

General characteristics

Legrand cabling system LCS³ enclosures - cabling ducts and accessories

- Material: steel
- Finishing: powder coating
- Colour: RAL 9011 (black)
