LEGRAND

PIR ceiling-mounting Lighting Management ON/OFF presence sensor for 1 circuit - 360°

REF. 048954 | EAN. 3414971267367

> [Visit e-catalogue](#)

Product characteristics

- Lighting Management sensors for 1 circuit - Lighting Management sensors for working areas with natural light - Check presence and light level continuously, switch off when there is sufficient natural light - Occupancy mode (automatic switch - on/off factory setting) - Can be used with push - button Cat.No 0 770 40 (or illuminated push - button Cat.No 0 770 33) for vacancy mode (manual switch - on and manual or automatic switch - off) - Infrared and ultrasonic Lighting Management sensors for workplaces, allowing precise presence detection as soon as the wave transmitted by the sensor is modified (for example, by hand movement on a keyboard) - Precise on - site adjustment using configuration tool
- Ideal for working areas - Suitable for meeting room, classroom, open space, etc. PIR ceiling - mounting Lighting Management sensors, 360° - IP 40, range 9 m - Recommended installation height : 2.8 m - 3 - wire with neutral connection to power supply - Can be installed on surface with dedicated accessory included in the box - ON/OFF presence sensor - Standby consumption 0,8 W
