#### DPX<sup>3</sup> 160 LEGRAND

DPX<sup>3</sup>160 thermal magnetic release circuit breaker, 4 poles, with rated current of 40A and breaking capacity 25kA

REF. 420052 | EAN. 3245064200523

DPX<sup>3</sup>, moulded case circuit breaker for switching, control isolation and protection of low voltage lines. Protects a circuit from damage caused by excess current from an overload or short circuit

# Description

DPX<sup>3</sup>, moulded case circuit breaker for switching, control isolation and protection of low voltage lines. Protects a circuit from damage caused by excess current from an overload or short circuit

#### **Product characteristics**

- Breaking capacity of 25kA, according to EN/IEC standard 60947-2, suitable for protection of commercial and middle power installations - Compliant with NEMA AB-1
- Rated insulation voltage of 800V Rated impulse withstand voltage of 8kV
- Thermal protection with manual adjustment range of 0,8-1,0 of the rated current Magnetic protection fixed at 10 time the rated current (minimum of 400A)
- Supplied with fixing screws, cage terminals 70mm<sup>2</sup> maximum flexible cable or 95mm<sup>2</sup> maximum rigid cable -Can be fitted with other connection accessories: cage terminals, spreaders, rear terminals
- Can be equipped with auxiliaries (shunt release, undervoltage release, auxiliary contact), rotary handle, motor-driven handle and locking accessory Can used with rotary handles or motor operator. Locking accessories are available.

## The product's benefits

#### Installation

 Can be mounted on rail or on plate in XL<sup>3</sup> or XL<sup>3</sup> S cabinets and enclosures

#### Usage

• Climatic condition according to IEC/EN 60947-1 Annex Q, Cat. F subject to temperature, humidity, vibration, shock and salt mist

#### **Avantages**

- DPX<sup>3</sup> platform has been developed to give a new solution of protection devices for a more precise approach in "flux" installations in order to offer the correct answer little panel builders or installers
- DPX<sup>3</sup>160 is the answer for the competition for reduced needs of flux sub-segment
