LEGRAND

Redundancy function modules for stabilised switched modules power supply - max 20 A

REF. 146698 | EAN. 3414970543677

> [Visit e-catalogue](#)

Product characteristics

- Stabilised switched mode power supplies - additional functions - Used to ensure optimum continuity of service for critical functions
- Redundancy function Redundancy function module - Can be used to control two 24 V= power supplies on the same load to ensure optimum continuity of service - Relay contacts and LED status indicators for the power supplies - For mounting on a symmetrical rail depth 7.5 mm and 15 mm - Input voltage : 21 to 28 V - Maximum rating : 20 A - Width : 56 mm
