Description

This cord is used to connect the area distribution box (consolidation point) to RJ45 socket with copper feedthrough to provide flexibility and scalability.

Product characteristics

- Category 5e U/UTP : for up to 1 Gigabit per second data rate, unscreened cable.
- RJ45 male plug at each end
- Low Smoke Zero Halogen materials that emit limited smoke and no halogen when exposed to high sources of heat.
- 8 meter length
- Grey

Recommendation / Restriction

- Compliant with ISO/IEC 11801 and ANSI/TIA 568 standards. Do not use as patchcord or user cord. As all consolidation point use, it may have an impact on maximum recommended permanent link and channel length to ensure high performance. Please check the datasheets.

The product's benefits

Installation

- No need to wire. Just plug this cord on RJ45 socket with copper feedthrough at one end and on RJ45 connector in area distribution box.

Usage

- Both workstations location change and new workstations addition can be done very quickly without significant investment and without a highly skilled workforce. Just change the length or add a cord between the area distribution box and the RJ45 socket. No need to pull a new cable from the cabinet in the technical room up to the workstation.
