LCS³ LEGRAND

Port blanking cassette for copper or optical panels

REF. 033757 | EAN. 3414970870452

> [Visit e-catalogue](#)

Product characteristics

- Quick visual localization of unused cassette slots.
- For an optimised management of the air flow inside the cabinet.
- Provide a protection from dust penetration in the patch panel.

The product's benefits

Usage

- The presence of blanking cassettes allows for a quick visual localization of unused cassette slots, as well as prevents penetration of dust in the patch panel. The presence of the blanking cassette prevents hot air from behind the cabinet to mix with cooler air from the front, thus maximizing the air cooling system in place in the data center.
