Recommendation / Restriction

- Indoor

The product's benefits

Installation

- Once the kit is on site you can install the floor box depending on the steps of the work site.

Usage

- Adapts to the surrounding environment. You can change the lid if the environnement changes with other lid references.

Avantages

- Available in three sizes, adapted to any kind of floor (raised floors, screed floors) and upgradable because equipped with commons wiring devices supports (a standard floor box can become a flush one without touching the electrical connexions)
- Fast installation without tool : the frame of supports kit clips in any kind of floor (directly in the raised floor or through one of the two backboxes in the screed floor)
