Description

The Arteor with Netatmo multicolor wireless lighting control can control up to 3 lighting moods to adapt the lighting according to the time of day (example: warm white when waking up and colors when watching television).

Product characteristics

- Allows you to launch 3 customizable ambiances (I/II/III) from your smartphone and to control the switching on/off and the variation of intensity.
- Allows you to control all types of lighting (bulbs, spotlights, led strips, etc.) Zigbee 3.0 certified (such as Ledvance smart+ Zigbee, Philips Hue, and many others).
- LED light with low battery indicator. Comes with a replaceable battery with an 8-year lifespan
- Radio 2,4 GHz
- White

Recommendation / Restriction

- To add your wireless lighting control to your connected installation, you must first purchase and install a Arteor with Netatmo connected starter pack, as well as one or more connected bulbs, switches, sockets or lighting micromodules Arteor with Netatmo
