LINEA 5000

WITH
Netatmo

The new Linea 5000 with Netatmo entrance panel makes access to buildings a digital event. Designed for multi-family settings and with wide-angle 5MPx HQ camera, digital filters, state-of-the-art design, intuitive graphical interface and smart access features, it stands out above the rest for its physical and digital customisation possibilities, making it the ideal choice for those seeking

GREAT DESIGN, CUSTOMISATION AND PERFORMANCE.

Advanced user experience.
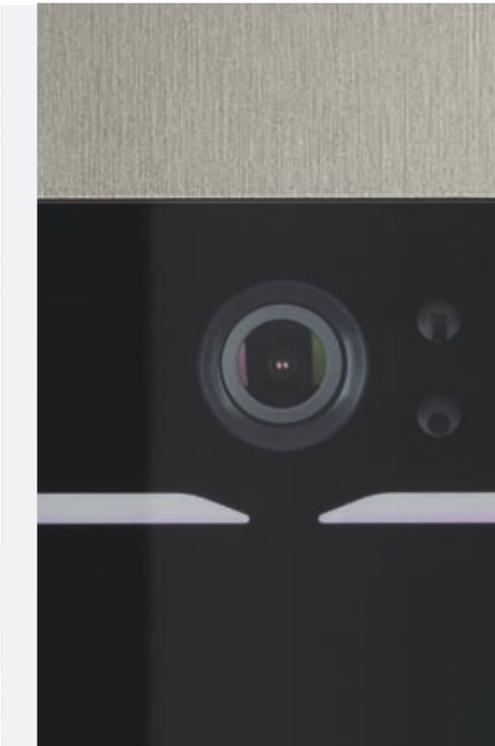

SIMPLER AND SMARTER.

Smart access.

The smart, easy and secure access features make Linea 5000 the ideal choice for the modern lifestyle and whenever elegant innovation is a must.

HOME + SECURITY

Immediate interface and voice feedback.

The large 7" touch screen display offers many smartphone-like features, making operation intuitive and accessible for everyone.
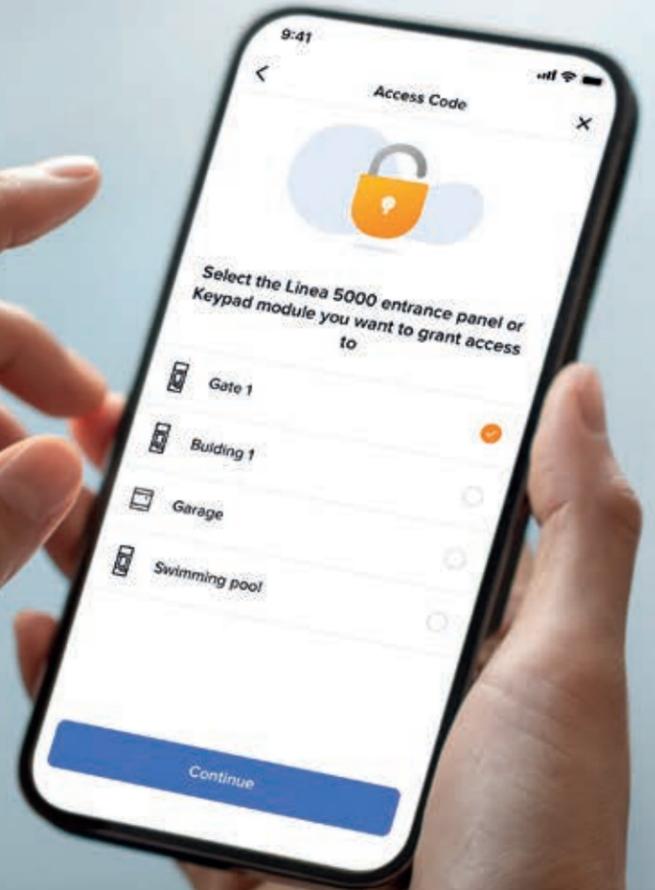

Video camera.

Entrance panel with 5MPx wide-angle HQ sensor camera* with digital filters. Linea 5000 offers secure access to buildings, as well as being highly resistant to water (IP65) and tampering (IK08).

_____

* Video signal is transmitted to internal units via PAL encoding on 2-Wires BUS SCS technology.

GET IT ON **Google Play**

Address book editing.

Thanks to the digital structure of the entrance panel, residents can update the address book themselves.

Messages displayed on the external panel, to welcome and guide guests.

Users can leave personalised messages for visitors, such as Airbnb guests or couriers, and access the building using their smartphone, via Bluetooth connection.

HOME + SECURITY

Ready to impress in every detail.

THE DESIGN.

Linea 5000 is a perfect combination of Italian style and advanced technology, where every detail makes the difference. Precise, elegant and innovative, its geometries lend sophistication, signed BTicino.

The technology, including the sensors, is hidden behind dark glass that activates when approached, revealing an intuitive interface.
The aluminium frame protects the 7-inch touch display, while the bevelled edges give it a slim yet durable appearance, for a quality design.
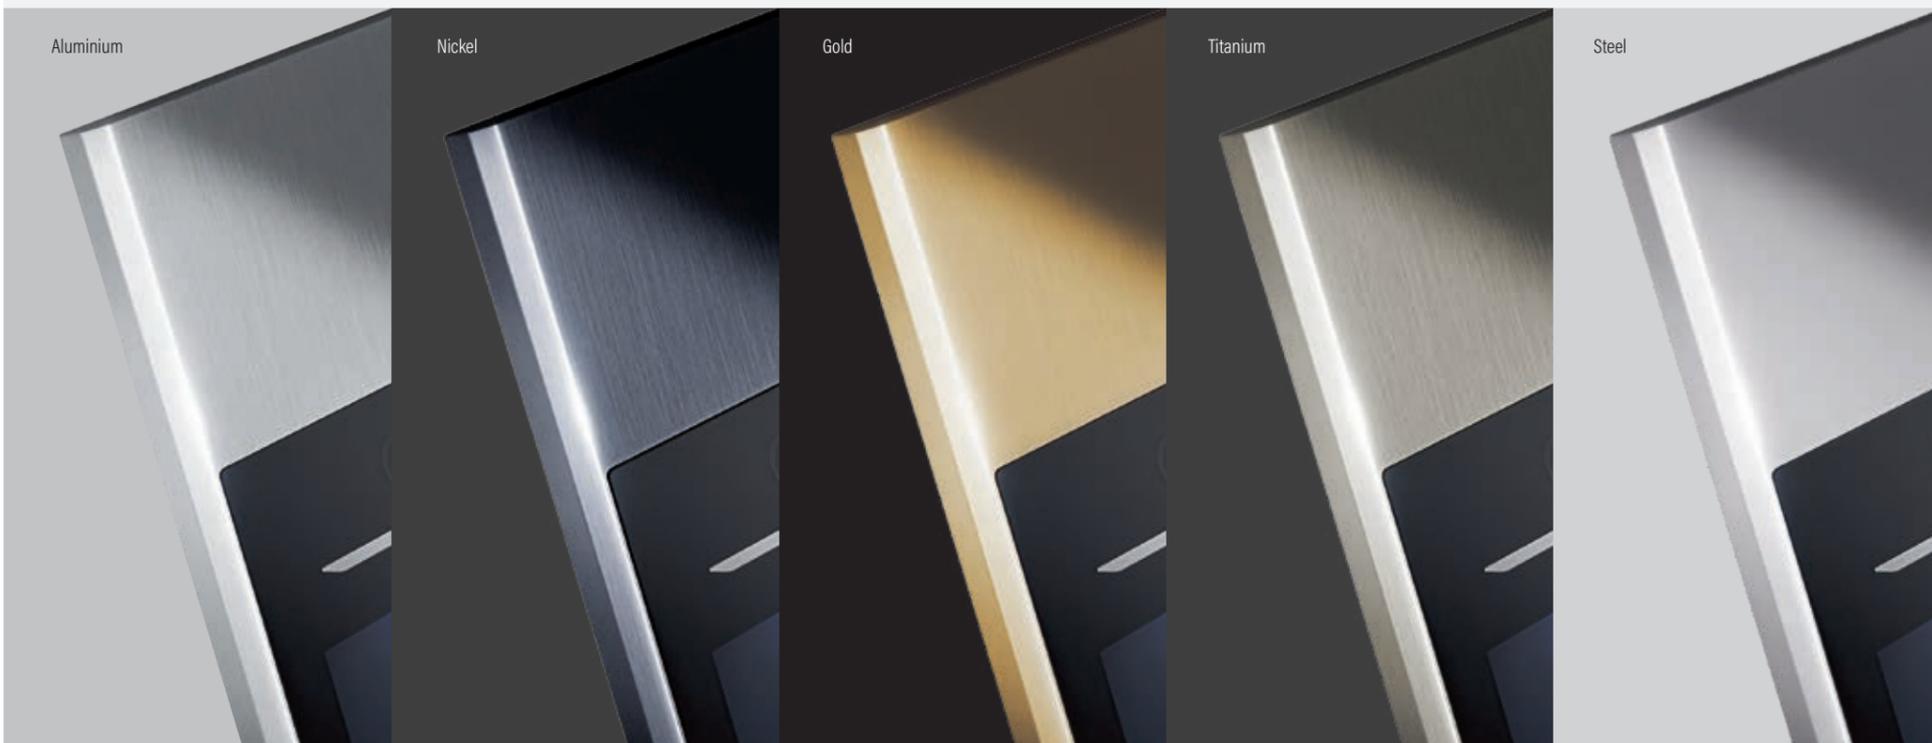

IP65 **IK08** **7"**

Sophisticated details, durable materials and specific luminous signals exude style and quality.

Style is expressed in many ways.

THE FINISHES.

**Different possibilities for every request.**

5 exclusive metallic finishes in 60% recycled aluminium, all of which meet different design requirements, to add value and personality to any living situation. Linea 5000 expresses robustness and high quality in every colour.

Welcome

Message
For deliveries, please leave the package in the room near the staircase at ground floor. Thanks.

Nickel, it is a striking metallic finish. The profiles are always elegant, but never intrusive.
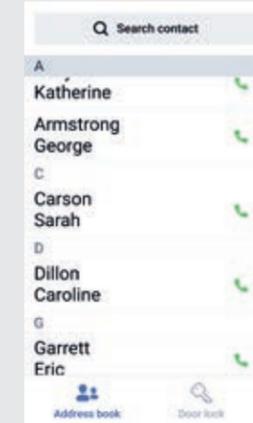

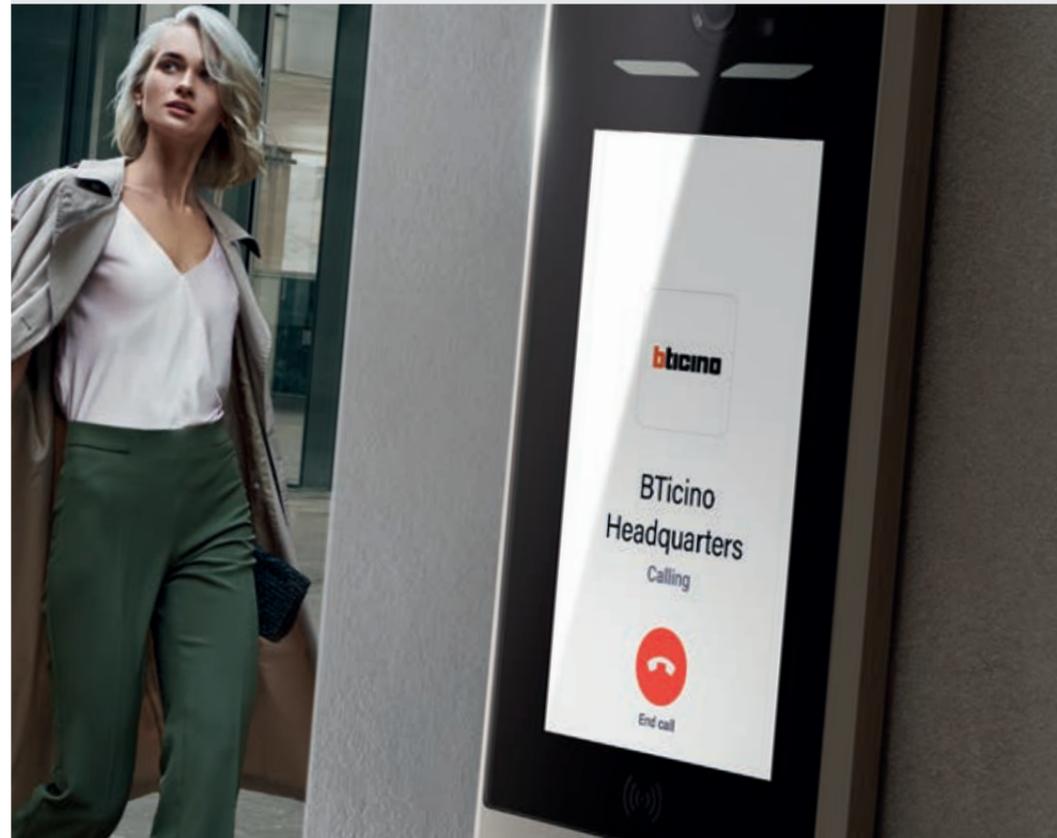

A touch of personality.
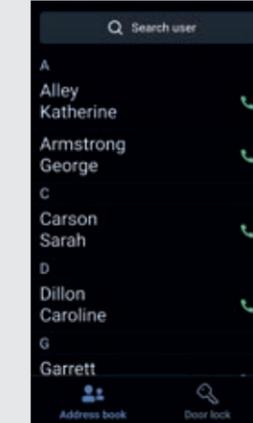

PHYSICAL AND DIGITAL.

Contact your installer to add
your street number and your logo.

**Phygital: where physical and digital customisation come together.**

The extensive customisation options, both physical and digital, bring ample freedom
of expression. Possibility of customised finishes, with cover plates available in assorted
colours; logo and street number for total adaptability.

White mode:
for clear and intuitive use.

Dark mode:
for discreet use.

The logo of adds
a very personal touch.

Customisable messages for
Airbnb guests, couriers and visitors.

Positive impact.

SUSTAINABILITY.

## Sensor technology: only active when needed.

Proximity and brightness sensors ensure energy efficiency, as the screen only activates when needed. The interface has been conceived with a "design for all" approach and can adapt to all types of users, including those who need voice assistance, high colour contrast and customised text messages.

Technology aimed at efficiency.

SMART ACCESS.

What makes Linea 5000 utterly unique is its versatility, demonstrated by its capability to meet every daily need and in its ease of use. Performing, modern, secure and with **voice assistance to support all types of users**.
